Voice of Nature: The Anthropocene

Presenter:

- **Renee Fleming**, World-acclaimed singer, international advocate for the arts, science and education; OneShared.World Global Artist

9:29am Can We Learn the Pandemic's Lessons?

The pandemic has made abundantly clear that all of our fates are connected. But while our greatest challenges are global, we haven't yet developed a sufficient way to solve global problems. How can a greater appreciation of our interconnectivity help us address these challenges? How can fixing the global collective action problem itself make it easier to address its specific manifestations?

9:29am Public Health in an Interdependent World

Speakers:

- **Lawrence Gostin**, University Professor, Georgetown University
- **Precious Malebona Matsoso**, Former Director General, South African Ministry of Health
- **Barbara Stocking**, President Emerita, Murray Edwards College, University of Cambridge

- **Seema Jayachandran**, Breen Family Professor of Economics, Northwestern University
- **Jay Naidoo**, Board Member, Mo Ibrahim Foundation; Former Minister, Reconstruction and Development, South Africa

10:39am Crossing Boundaries in an Interdependent World

What lessons can be drawn from the conversations about public health, climate change, and poverty and inequality that suggest better ways to solve our common challenges through an interdependence framework? What common languages and linkages exist between the different communities (public health, climate change, poverty and inequality, etc.) that might be better understood and leveraged?

Discussants:

- **Stephen Heintz**, President and CEO, Rockefeller Brothers Fund
- **Vishakha N. Desai**, Senior Advisor for Global Affairs to the President and Chair of the Committee on Global Thought, Columbia University; Senior Advisor, OneShared.World

10:49am Refugees and Migrants in an Interdependent World
